EXPERIENCE

MadBlocks   Intern | May 2023 - July 2023 | Virtual

FULL STACK - MERN STACK   HTML | Bootstrap | MySQL | MongoDb

- Developed Quiz App, implemented using Front-End and Back-End technologies.

Make Skilled   Intern | Jul 2022 - Oct 2022 | Virtual

AWS   AWS CLI | boto3 | IAM user | streamlit

- Completion of a mini-project Face Recognition using AWS.
- Created IAM User Dashboard and AWS Credentials.
- Learned new concepts like boto3, streamlit, and AWS CLI.
- Face Recognition Project implemented on the Web Server and successfully deployed by using the datasets and APIs.
- Worked on new AWS architecture, ensuring scalability and cost-effectiveness.

PROJECTS

QUIZ APP   HTML | JavaScript | MySQL | NodeJS | MongoDb

- Client (React): Handles the front-end interface.
- Server (Node.js and Express.js): Manages the back-end logic and interacts with the database.
- Quiz Component: Displays the questions and multiple-choice answers.
- Result Component: Shows the user's score and feedback after completing the quiz.
- Home Component: A landing page or main interface for starting the quiz.

LAW and ORDER   Social Activity | Motivation | Awareness

Created awareness among high school students about Law and Order in our daily life by following traffic rules properly and not becoming addicted to any harmful habits.
